Dental Practice Made Simple 8 Powerful Strategies To Ensure A Thriving Practice

Practice success has been, and always will be about systems. It's that simple.

Systems are the pathway to ensuring excellent production, developing a highly trained team and maintaining a loyal and ever-increasing patient base. But systems need to change to remain relevant and now need to be updated faster than ever before. This webinar will provide the pathway to success. Join Dr. Levin for an insightful, up-to-the-minute look at what is and isn't working in today's most successful dental practices.

If you have ever felt challenged or perplexed about how to achieve high levels of production while maintaining an enjoyable and low stress environment, here is your chance to solve the puzzle.

In this high-energy webinar, Dr. Roger Levin will reveal the breakthrough strategies used by the highest producing practices in the country to grow production while lowering stress – all aimed at building a thriving practice in 2021.

Webinar Overview

Learn the high-powered proven systems that increase revenue and generate more income for practice owners. Dr. Levin will share the most advanced methods for staying ahead of the competition and transforming your practice into a production powerhouse. New strategies, systems and behaviors will be essential for practices to increase production and maintain success.

This 1-hour presentation, containing the most current and updated information, will focus on the most important 8 strategies that every dental practice can and must utilize to reinvent their practice management foundation and understand the pathway to future success. These strategies and techniques can be mastered by ANY dental team that is committed to improvement and ready to move their practice to its highest potential. Building the practice of your dreams can be simple and easy IF you know what to do. Dr. Levin will teach you how.

Learning Objectives

1. Learn the 8 leading-edge strategies developed by Levin Group that will immediately improve practice performance and production to position the practice for a strong future.
2. Learn 22 ways to increase production and 15 ways to lower overhead.
3. Understand how systems and scripting such as scheduling, hygiene productivity, case presentation, insurance, customer service and other key practice production factors need to be upgraded for future success.
